

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. - 20. (cancelled)

21. (new) A substrate impregnated with a cleansing preparation, wherein the cleansing preparation is foaming, has a viscosity of from 1 to 3,000 mPa.s, and comprises:

- (a) a total of from 0.1 % to 15 % by weight of (i) at least one anionic surfactant selected from acylamino acid surfactants, sarcosinates, sulfosuccinate citrates, monoalkyl phosphates, and olefin sulfonates, and (ii) at least one nonionic surfactant selected from alkyl polyglycosides;
- (b) from 40 % to 99 % by weight of water; and
- (c) from 0.01 % to 3 % by weight of one or more preservatives,

each based on a total weight of the cleansing preparation.

22. (new) The substrate of claim 21, wherein a weight ratio (i) : (ii) is from 2 : 5 to 5 : 2.

23. (new) The substrate of claim 22, wherein the weight ratio is from 3.5 : 4 to 5 : 3.

24. (new) The substrate of claim 21, wherein (i) comprises an acylamino acid surfactant.

P30826.A02

25. (new) The substrate of claim 21, wherein (i) comprises at least one of sodium cocoylglutamate, sodium lauroylglutamate, sodium capryloyl glutamate, and di-TEA-palmitoyl aspartate.

26. (new) The substrate of claim 21, wherein (i) comprises sodium cocoylglutamate.

27. (new) The substrate of claim 21, wherein (ii) comprises at least one of lauryl glucoside, decyl glucoside, and cocoglucoside.

28. (new) The substrate of claim 26, wherein (ii) comprises at least one of lauryl glucoside and decyl glucoside.

29. (new) The substrate of claim 21, wherein the preparation comprises from 50 % to 90 % by weight of water.

30. (new) The substrate of claim 21, wherein the preparation comprises from 60 % to 90 % by weight of water.

31. (new) The substrate of claim 21, wherein (c) comprises at least one preservative selected from benzoic acid and salts and derivatives thereof, and salicylic acid and salts and derivatives thereof.

P30826.A02

32. (new) The substrate of claim 21, wherein the preparation comprises from 1 % to 10 % by weight of (a).

33. (new) The substrate of claim 21, wherein the preparation comprises from 0.1 % to 2 % by weight of (c).

34. (new) The substrate of claim 21, wherein a weight ratio of substrate : preparation is from 1 : 0.5 to 1 : 5.

35. (new) The substrate of claim 21, wherein the preparation has a viscosity of from 1 to 2,500 mPa.s.

36. (new) The substrate of claim 21, wherein the preparation further comprises at least one film former.

37. (new) The substrate of claim 36, wherein the film former comprises at least one polyquaternium substance.

38. (new) A wipe impregnated with a cleansing preparation, wherein the cleansing preparation is foaming, has a viscosity of from 1 to 2,500 mPa.s, and comprises:

(a) a total of from 1 % to 10 % by weight of (i) at least one anionic surfactant selected

from acylamino acid surfactants, and (ii) at least one nonionic surfactant selected from alkyl polyglycosides, a weight ratio (i) : (ii) being from 2 : 5 to 5 : 2;

(b) from 50 % to 99 % by weight of water; and

(c) from 0.1 % to 2 % by weight of one or more preservatives selected from benzoic acid and salts and derivatives thereof, and salicylic acid and salts and derivatives thereof,

each based on a total weight of the cleansing preparation.

39. (new) The wipe of claim 38, wherein the weight ratio (i) : (ii) is from 3.5 : 4 to 5 : 3.

40. (new) The wipe of claim 38, wherein (i) comprises sodium cocoylglutamate.

41. (new) The wipe of claim 40, wherein (ii) comprises at least one of lauryl glucoside and decyl glucoside.

42. (new) The wipe of claim 39, wherein the preparation comprises from 60 % to 90 % by weight of water.

43. (new) The wipe of claim 39, wherein the preparation further comprises at least one film former which comprises a polyquaternium substance.
